It gives me great pleasure to write a reference for GINA WARD.

I have known Gina for many years, both as a professional and as a friend. I have always admired Gina for her positive energy which she invested in building her school. Her school is truly a monument to her commitment to quality Montessori education for the children there. Not only did she secure a beautiful place in the country which offered the children lovely indoor as well as outdoor environments, she also expanded her facilities over the years, to allow more classrooms to accommodate more children in her school.

Gina always pitched in where help was needed. For a time, she even took over a classroom teaching position while continuing to carry the overall responsibilities of directing the school.

I have had the pleasure to formally visit her school on several occasions, in the capacity of AMI School Consultant. I always felt warmly welcomed. My observations of her school as a whole, as well as the individual classrooms, were nothing but impressive. My evaluation was always one of highest praise for the results she has worked for so hard and has accomplished.

Gina has been beloved by her teachers as well as the parents of her school. Her job as administrator and director could be an overwhelming one, however, she always handled every situation gracefully.

I believe that Gina has unusual talents for understanding the Montessori philosophy and putting it into practice. I am certain that she would uphold this personal and professional standard of hers in any position she would hold in the future. I wish her all the best in her future endeavors.

Respectfully submitted,

  
Lilian Bryan
